

Professional Summary

AI/ML data operations specialist with 7+ years improving Siri accuracy, annotation quality, and UX across high-volume pipelines. Partners with ML, Product, and Localization to reduce error classes, tune taxonomies, and accelerate iteration via dashboards and QA rigor. Strengths in diagnostics, cross-functional communication, and scalable process improvement.

Core Skills

- **Technical:** Annotation QA, guideline authoring, inter-annotator agreement (IAA), taxonomy governance, sampling/QC plans, experiment design, friction analysis, Tableau dashboards, Jira/Confluence, Microsoft 365/Google Workspace, iOS/macOS diagnostics, JSON/CSV, Excel (pivot/VLOOKUP), basic SQL.
- **Domain:** NLP/NLU/ASR, intent classification, prompt evaluation, data quality, localization nuance, UX evaluation, experiment readouts, privacy/PII handling, cross-functional collaboration.

Experience

Apple — Austin, TX

Data Operations Analyst | Sep 2021–Jun 2024 (Remote)

- Reviewed 500+ Siri interactions/day; applied linguistic tagging and QA to train NLP models, driving a 12% accuracy lift across targeted domains.
- Improved localization quality across 3 locales (en_US, en_CA, and en_UK) via cultural-nuance checks; partnered with ML and Product to refine prompts, intents, and fallbacks, reducing annotation variance and boosting successful matches.
- Built Tableau and internal dashboards to monitor throughput, error classes, and taxonomy drift; enabled faster iteration with clear stakeholder readouts.

Technical Expert | Mar 2019–Sep 2021

- Diagnosed recurring software faults using log analysis and trend patterns; reduced repeat visits by 20% and mentored 5+ teammates with playbooks that improved first-time resolution and triage speed.
- Resolved 1,200+ device issues with a 95% first-time fix rate; maintained 4.9/5 CSAT through precise communication and de-escalation.

Business Development Specialist, Apple Pay | Jan 2021–Jun 2021 (Remote)

- Prospected 50+ e-merchants and led 20 integrations in 6 months; supported SDK/API onboarding and merchant testing.
- Achieved 35% conversion lifts by aligning integration paths and optimizing checkout UX messaging.

iOS Technical Support Advisor | Mar 2020–Jan 2021 (Remote)

- Achieved 90%+ same-call resolution under 20 minutes across 2,000+ cases with minimal escalations; used remote diagnostics and KB workflows to isolate root causes and shorten TTR.
- Educated customers on next steps, warranties, and repair options, documenting interactions precisely in Apple case systems.

Specialist | Apr 2017–Mar 2019

- Drove \$10K+ monthly sales with 30% attach/upsell; enabled 10+ SMBs to adopt Apple ecosystem workflows.

Early Experience

Starbucks — Shift Lead | Sep 2016–May 2017 — Improved service speed by 25% through training and queue design.

Target — Front-End Lead | Aug 2015–Nov 2016 — Reduced queue times by 30% via dynamic lane management.

Education

Concordia University Texas — Austin, TX — B.A., Political Science & Psychology — In Progress

University of Texas at Austin — Austin, TX — Minor, Military Science (Army ROTC) — 2017

Ennis High School — Ennis, TX — 2015

Certifications

- **Apple Certified iOS Technician (ACiT), Apple** — Issued Mar 2019, Active
- **Etiquette & Productivity, Slack** — Credential ID: 30421184
